CALENDAR FOR SCHOOL YEAR 1920 - 1921

TUESDAY, SEPTEMBER 14, 1920, 9 A. M.—Session begins. Matriculation and classification of students.

SATURDAY, OCTOBER 30, 8 P. M.—Hallowe'en Reception.

THURSDAY, NOVEMBER 25.—Thanksgiving Day, a holiday. Kemper-Wentworth Football Game.

THURSDAY, DECEMBER 23, 1:15 P. M.—Christmas holidays begin.

MONDAY, JANUARY 3, 1921, 9:30 A. M.—Christmas holidays end.

SATURDAY, MARCH 26.—"W" Club Fete.

THURSDAY, MAY 26, AND FRIDAY, MAY 27.—Final examinations.

SATURDAY, MAY 28, 2 P. M.—Field Day Exercises.

SUNDAY, MAY 29, 10:45 A. M.—Baccalaureate Services.

MONDAY, MAY 30.—Military Exercises, Senior Reception and Ball.

TUESDAY, MAY 31, 10:30 A. M.—Commencement Exercises.

WAITING FOR VISITORS AT THE LEXINGTON STATION

TO PARENTS

THE SELECTION of a school for your boy is no small matter. He is the center of your hopes and ambitions. His failure or success in life will mean your sorrow or happiness; and his career in the world will depend largely upon his career in school. So you are probably exercising all possible care and diligence in choosing an institution to develop the best things in him. In spite of all you can do, your choice will be largely a matter of chance. You have probably written for a number of catalogues; out of these you will select two or three which seem to set forth the requirements that you want. Then some picture or phrase in a catalogue may be the cause of your decision. But you should eliminate as nearly as possible the element of chance.

¶ Before selecting the school for your boy you should first be sure that the conditions as set forth in the catalogue represent the conditions that you will find at the school. There are fake catalogues of schools just as there are fake circulars about mines and real estate. You should, if possible, get in touch with someone who has had relations as a parent, student, or teacher in the school which you are considering and find out whether it is all that its catalogue represents it to be.

¶ You should next examine the history of the school. Has it been established long enough to be past the experimental stage? Is it an educational institution or a scheme for making money? A new school or one which has just changed its management may promise wonderful things, but the wise parent will choose one that is assured of permanency.

¶ You should learn, too, whether the school can interest your boy and build up his body. If he is allowed to lie listlessly around his room, he will be homesick and indifferent to his work. He should be made to take part in athletics and to develop pride in his physical being.

¶ Finally, you should be sure that the scholastic work is given the most important place in the program of the institution. If your boy is amused and made strong at the expense of his education, your investment will be a poor one. Make sure that the school you select does thorough, conscientious academic work and that the courses it offers are recognized by the leading universities and colleges.

¶ The Wentworth Military Academy is essentially an educational institution. Its chief aim is to produce men of culture, ability, and character. When it was established forty years ago it took as its motto, "*Mens sana in corpore sano*"—"a sound mind in a sound body." Its system of athletics, its military organization, its social life, its course of study—all have the object of accomplishing the symmetrical development of its students. That it has been abundantly successful is shown by the number of its graduates who have become prominent as scholars, professional men, and business men. If a boy has capabilities and is honest, Wentworth Military Academy offers him an excellent opportunity for developing his best qualities.

¶ If your boy has possibilities, if you want those possibilities realized, the history of Wentworth, the character of its students and teachers, its high standing with the United States Government and with the best universities of the country, its purpose and aims should appeal to you. Then, if you send him to Wentworth, the highest desire of the school authorities will be the development of the body, the mind, and the character of your boy.

OUTLINE OF PLAN AND PURPOSE

WENTWORTH has as its primary object the upbuilding of the intellectual, moral and physical powers of its students. The faculty is therefore composed only of men who have been thoroughly trained for the branches which they are to teach. The Academy realizes, however, that intellect without sound character is worth but little. Therefore, its in-

Advantages of the Wentworth System

Wherein does Wentworth possess advantages of a purely scholastic nature over the average high school and many private schools?

Length of Supervised Study Periods

Third, the supervised study periods are of sufficient length for the proper preparation of lessons. Each cadet is required to carry four subjects and this means that he has two vacant periods of forty minutes, both of

PASSING IN REVIEW

structors are chosen only from men of the best character. The Charter requires that every member of the faculty be a member of some evangelical church. Wentworth believes that the highest ambitions of man cannot be attained without a sound body, and, therefore, has as another great aim the proper development of physique.

Small Classes

First, the classes are comparatively small and the student gets much individual attention. Every student must recite practically every day in each class, and his instructor can keep in close touch with him and easily see wherein he needs attention.

which he is required to devote to study. Besides these two periods, every cadet is required to devote two hours of each evening to his scholastic work. Outside of these periods, the cadet has his recreation hours, of which he may devote as much time as he desires to his studies.

Instructors Live at the Academy

Second, the instructors live in barracks with the cadets. The cadet may therefore easily receive much individual assistance outside the class room. The instructors all have the welfare of the boy at heart, and they are always willing to render special assistance whenever it is necessary.

Lexington, Missouri.

The Whole System Calculated to Get Best Scholastic Results

It is to be noted further that the regularity of Wentworth life, the system of discipline and in fact all the school activities are so planned as to bring about the best possible results in the scholastic work. Appropriate prizes and privileges are offered to students attaining special distinction.

scholarship. It is not natural for a red-blooded boy to enjoy competition with girls; at Wentworth he has only boys for competitors. The good students, moreover are not of the anaemic type usually designated as "grinds." The leaders in scholarship invariably are leaders in other school activities and hold responsible positions in the student body.

CLASS ROOM, COMMERCIAL DEPARTMENT, MARINE HALL

Reports Sent Home Every Two Weeks

Reports of the scholastic work are sent home at the end of each of the grade periods. There are six of these periods during the year. Informal reports also are sent at the end of each two weeks during the grade period. Thus the parent may keep in close touch with the student's record and advise regarding any proposed change in classification.

Competition With Boys

If the grade sheets showing the comparative standing of students in any co-educational school be examined, it will be found, in practically every case, that the girls lead in

Moral and Religious Instruction

Any system of education that does not place the moral element ahead of the mental and physical is abortive, and Wentworth strives to impress its student with the importance of right living, of avoiding excesses and anything that tends to weaken the powers of mind and body.

In the daily contact between teacher and pupil that exists at Wentworth, the teacher has great opportunity for making lifelong impressions by his example as well as by his precept.

The design of the founder of the Academy was that the school should be positively

Wentworth Military Academy

Christian in character, but not sectarian. The Board of Trustees is composed of representatives of all the leading Protestant churches of Lexington. The students are required to attend church once each Sunday. Half the time there are services in the gymnasium,

Sunday school is conducted in barracks by the regular instructors of the Academy. Everything that is inclined to impress the mind with the tenets of any one church, to the exclusion of others, is carefully avoided.

Physical Training.

It is the object of the school not to turn

um, conducted by the school chaplain or by some prominent minister. When there is no service at the Academy the students attend in ranks the churches to which they belong or which their parents designate. A

out crack athletic teams and a few highly trained athletes, but to give every boy in school that physical training which he needs. Owing to the fact that the life at Wentworth is so regular and so conducive to the best physical development, her teams are able to compete successfully with many of the strongest college teams. It is to be noted, however,

Lexington, Missouri.

that the school never loses sight of the boy who is not the star athlete, and that he is trained along athletic lines as well as is the man who is able to make the team.

All Interested

The athletic teams are composed of volunteers, but every boy is required to engage in some form of athletics. It is the aim of the school to provide coaches for as many teams as can be organized.

The Competitive Sports

Ten football teams are developed and trained by various members of the faculty. In

drill. It teaches self-control and gracefulness of carriage. It develops those muscles which are most needed throughout life. One and one-half hours of each school day is devoted to drill, and there are ten other military formations of short duration which

the cadet attends daily. At all formations he is taught to hold his shoulders back, his chest out, his head up, and his face squarely to the front. The form of

basketball, besides the school teams which compete with other schools, each company has a team, and a tournament is held for the company championship. Track

physical exercise used by our army camps in developing soldiers is used every day at Wentworth.

Calisthenics

The pictures on this page show some of the calisthenic exercises used at Wentworth.

These exercises

athletics, baseball, cage ball, soccer and tennis are carried out along the same lines.

Military Drills

There is no better means of physical exercise than that afforded by the military

have been developed after years of thought by the expert in charge of the gymnasium work at West Point, and they are used by the entire United States Army. They are the most effective and complete set of calis-

Wentworth Military Academy

thenic drill ever developed. They reach every muscle of the body, giving that muscular roundness, erectness, and gracefulness of carriage which only such exercises can give. An officer of the United States Army, who has recently had two boys in Wentworth, said: "One of the greatest benefits has been in the physical improvement. The military training and athletic exercises

Gymnasium Work

During bad weather, when it is impossible to have outdoor drill, much of the drill period is devoted to gymnasium work. This work is very interesting and highly beneficial for physical development. The gymnasium is open at all times and during recreation hours many of the cadets find profitable pleasure

GYMNASIUM CLASS

have straightened the boys' backs and given them a carriage that I did not hope for them to acquire in one year."

BAYONET DRILL

in boxing, wrestling, and working on the various gymnasium apparatus.

In view of the fact that Wentworth requires every boy to engage in some form of athletics, there is provided a special gymnasium instructor who will have charge of all boys not engaged in outdoor athletics. This work will consist of the usual gymnasium exercises, such as tumbling, work on the parallel bars, and gymnastic games of interest. This will aid materially in the development of the boy.

Lexington, Missouri.

"W" CLUB MASQUERADE BALL

Social Life

The ability to meet cultured people and to

son clean and neat, to have his hair cut properly, and to see that his shoes are polished. In the Mess Hall he sits at a table presided over by a member of the faculty or a responsible student officer and receives any attention he may need in the matter of table manners.

Lexington furnishes abundant opportunity for social enjoyment. The ladies' college gives frequent entertainments, which the cadets are permitted to attend. The best homes in the town are often open to the students.

be at ease in company is a valuable asset. So cadets at Wentworth are encouraged in such social activities as will not interfere with their school work.

Every student is required to keep his per-

STREET PARADE

Wentworth Military Academy

VISITORS FROM ST. JOSEPH, MISSOURI, AT THE "W"
CLUB FETE, MRS. MASTERS CHAPERONING

Music

The school offers exceptional opportunities to boys who have musical talent in its band, orchestra, and glee club. Frequently during the past two years the Academy Band has been called upon to furnish music in parades in Kansas City and nearby cities, and in execution and appearance it did not suffer in comparison with the large professional bands appearing on the same occasions.

The quartet is in demand for various social functions and religious services. The orchestra plays for receptions and dances. In the mess hall there is a piano. From time to time solo numbers are given and the corps engages in community singing. The singing of the cadets at religious services has been a matter of comment by many visitors.

Personalities Developed

While the discipline at Wentworth is firm it is not at all harsh. Very little punishment of any kind is inflicted. The punishment that is assigned is always of a military nature and not the kind which will in any way humiliate a boy. Students who cannot be handled without physical compulsion are sent home.

The aim of the disciplinary department is the development of personalities. Hence a great deal of responsibility rests on the students themselves. The Academy is in no way a penal institution. Students are al-

lowed considerable freedom in regard to their personal conduct and there is no elaborate or rigid set of rules. Many cases of discipline are handled by the students themselves

The Quartette

SCOTT JONES DANIELS
MILLER

and the conduct of the student body is the result of popular sentiment rather than of an oppressive system of regulations.

In short the plan of Wentworth has as its object the developing of American citizens—men who are mentally alert, physically sound, and courageous enough to take prominent parts in the educational, religious, commercial and political life of their communities.

Lexington, Missouri.

LOCATION

LEXINGTON is the county seat of Lafayette County. It has a population of about 5,000 and is remarkably well equipped with excellent store buildings, public edifices, handsome residences and broad brick streets. It has excellent systems of electric light, waterworks, gas and sewage. Some two hundred and ten feet above the river, a more beautiful and healthful location could scarcely be found.

school, there is an excellent girls' college in Lexington. Being a county seat and an educational center, Lexington draws to it many well-educated, public and professional people.

The town is just forty-two miles from Kansas City and is easily reached by two branches of the Missouri Pacific from both Kansas City and St. Louis.

The view across the broad Missouri River valley presents a magnificent physiographic study and is one which is scarcely rivaled for scenic beauty.

"THE POINT"

On one of the bluffs of the river not far from where Wentworth Military Academy stands was fought the battle of Lexington, which was an important battle of the late Civil War. Lexington is an old town and its population includes many of the oldest and most cultured families of the state. The cadets are therefore thrown with cultured and refined people in their social life.

Besides Wentworth and the city high

The Climate

Lexington is located in central Missouri. The climate here is ideal for a school, since it is cool enough to be invigorating and to offer the winter sports, such as skating and sleighing, and at the same time it is mild enough not to subject the students to the rigors of a more northern locality. The cadets can be out of doors comfortably practically all of the school year.

BUILDINGS AND GROUNDS

Buildings

All the buildings of the Academy are constructed of brick and stone, with the exception of Marine Hall. The buildings have all been designated for their present use and they are thoroughly adequate and well suited

SCRUB DAY

for uses to which they are put. They are heated by steam and hot water.

Marine Hall is a fine new building constructed along the lines of the cantonment buildings with such added refinements as are best suited to its use here. It has hardwood floors throughout, a fine recreation

room, and large cadet rooms. A most modern and thoroughly equipped business department is also located in this building.

The Grounds

The grounds, consisting of forty-five acres, are elevated, well drained, covered with a rich growth of blue grass, and adorned with

COMMANDANT'S RESIDENCE

shade trees. The tract contains two stately homes with beautiful lawns and trees. This gives Wentworth space for two fine athletic fields and facilities for carrying on all branches of athletics with students of all ages. It also gives ample room for the military work and camping.

WEST END OF THE GYMNASIUM

Lexington, Missouri.

Dining Room and Kitchen

The dining room is a beautiful large room decorated in white. An addition has recently been built to accommodate the enlarged enrollment. The kitchen has also been enlarged

every case there is at least one large outside window. Each room is provided with a spacious wardrobe, a comfortable iron double-deck bed, two chairs, a table with the best student stand electric light, and a mirror.

SUPERINTENDENT'S RESIDENCE

and many needed conveniences added so that it is now one of the best equipped school kitchens in the country.

Cadets' Quarters

The rooms are designed for two boys each. They are large and well ventilated, and in

ASSISTANT SUPERINTENDENT'S RESIDENCE

Of course, the rugs and any decorations are furnished by the cadet. Each room is well heated by either hot water or steam. Wash basins, which are furnished with hot and cold running water at all times, are located on every floor, making them very convenient to

each room. The toilets are also convenient to every room and they are of the most modern and sanitary design. Every precaution with regard to cleanliness and sanitation is taken. Shower baths are also conveniently located in the barracks and hot and cold water may be had at all times.

The rooms are all convenient for escape in case of fire, and sufficient fire drill is held to insure absolute safety to all cadets.

Water Supply

The water of Lexington is furnished by the Missouri River. Before being pumped to the city, it is settled and cleared. The Academy, however, is not satisfied with this general treatment and has installed a splendid system of modern filters, which furnishes an absolutely pure and abundant supply of water.

The Academy is located on the outskirts

JUNIOR BARRACKS KITCHEN AND MESS HALL

Class Rooms

The class rooms are well equipped with all necessary apparatus; they are well lighted and well ventilated.

Food Supply

After forty years of experience, the management of the Academy realizes that no school for healthy, red-blooded boys can be successfully conducted on a scanty food supply. The Academy table is set with the most wholesome and nutritious of well-cooked food and an abundant supply is always served. Every possible care is taken with regard to cleanliness, sanitation and proper preparation of the food.

of the town about one-half mile from the business district. The air is fresh and pure at all times and a more healthful location could not be found anywhere in the country.

Medical Inspection

The grounds and buildings are given daily inspection by the Academy officers. Every precaution is taken with regard to sanitation, and the Academy officers, who are all instructed along this line, are constantly vigilant as to the condition of the buildings and premises.

Approved modern methods of prevention are employed by the school. Every cadet is required to be vaccinated for smallpox and

Wentworth Military Academy

typhoid fever, two of the most prevalent diseases in community life. It is interesting to note that since these requirements have been made there has been no case of either disease at the Academy.

The Hospital

The Hospital is located one-half block from the Academy, a distance which is conveniently close and at the same time far enough away to isolate completely any case of con-

Trained Nurses

The hospital is under the care of two graduate nurses who are employed by the Academy and whose services are always available for those who may need their attention.

Swimming Pool

Adjoining West Barracks is an outdoor swimming pool made of concrete. This pool is 20 by 50 feet and has a depth ranging from 3 to 10 feet. At the deep end is a div-

SURGEON'S OFFICE

HOSPITAL

MAIN WARD IN HOSPITAL

tagious or infectious disease. It is a nine-room building and is completely equipped for the handling of any case of illness which might arise. There are twenty-five beds in the hospital, eight of them in the large ward and others in the smaller rooms. Contagious diseases are promptly placed in isolation wards. The Wentworth hospital is one of the most thoroughly equipped hospitals of its size in the state.

ing stand and spring board. Cadets derive much pleasure and healthful exercise from this pool in the fall and spring.

There is also a splendid swimming pool in the basement of the gymnasium addition. It will be lined with white tile and the water before going into it will be filtered and chlorinated. Probably it will be ready for use before the end of summer.

Lexington, Missouri.

The Laboratories

The equipment of the laboratories at Wentworth Military Academy has been carefully selected with particular reference to the

need of the school and includes all apparatus necessary to teach thoroughly the branches laid out in the courses of study.

PHYSICAL LABORATORY

CHEMICAL LABORATORY

Wentworth Military Academy

Library and Reading Room

A large, well lighted and well ventilated reading room and library has been provided for the use of cadets at all times. Reference books to be used in readings assigned by instructors, and modern encyclopedias are always available. The best works in English literature, including the productions of the

New Gymnasium

The new gymnasium, 220 by 55 feet, is built of pressed brick with stone trimming. It has proved a most valuable adjunct to the

TEACHERS

As a result of the generally low salaries paid to school teachers and the consequent exodus of teachers from school work to more remunerative occupations there exists in America today a startling state of affairs regarding the training of the coming generation. Mr. Arthur E. Holder, writing in the New York TRIBUNE and quoted in the LITERARY DIGEST, May 1, 1920, points out the fact that the alarming shortage of teachers has resulted in the closing of 18,279 schools, while in 41,900 schools "the teaching of impressionable young minds is intrusted to teachers who are below the standards in training and some times in character, because no others can be had."

Nearly every community has seen in some form the lowering of the quality of its public school work during the past two years and the decrease of normal school students from 50 to 80 per cent since 1917 shows that there is no immediate prospect of better conditions.

Feeling the demand for more efficient teaching than the ordinary public school can give today, Wentworth has increased rather than lowered the standard of its teachers. It pays its teachers living salaries and thereby it can secure men who have outstanding qualifications.

All the regular teachers at Wentworth are MEN. Women teach only special subjects such as music, public speaking and stenography, and they have nothing to do with the discipline. Having a boy under men teachers is generally desirable, especially if these men are the kind to inspire the boy. The percentage of men teachers in most schools for years has been low and just now it is rapidly dropping further.

The men on the Wentworth faculty have college degrees; they are church members; they like to teach. Most of them are active, young men. More than half of them were in service during the war.

The war is over, but the need for physically fit and well trained men is not over. "Fit to Fight" must apply to those who expect to help solve the problems of the coming reconstruction period and future problems. Never in the world was there a greater need for men trained to think and act with precision. A military education will aid in developing a keen and alert mind. Especially is this true of Wentworth training. Wentworth produces no snobs because of the democratic and homelike atmosphere of the institution. Neither does its system of discipline produce the man who cringes under authority. Rather does its system develop the greatest amount of initiative and responsibility. This explains why Wentworth men succeed and why so many of them have risen to positions of influence and authority.

The World War placed military schools in a position where military men have long said they belong. General Barnett, Commander of the United States Marines, said his organization could not have played the important part it did so quickly had it not been for the men he got from military schools who were ready to assume the responsibilities of officers.

Lexington, Missouri.

HISTORICAL

BATTLE OF LEXINGTON, MISSOURI, SEPTEMBER 19-21, 1861

Photographed from an oil painting by F. Dominico, Hungarian exile, who made the sketches during the battle. The United States flag flies from the roof of what was then the Masonic College, but now is used as one of the buildings of the Central College for Women. The site of Wentworth Military Academy is on the extreme left of the picture.

"The Wentworth Arms"

"WENTWORTH" is a well known English name and many prominent men of Europe and America have been its proud possessors. The ancestors of the founder of Wentworth Military Academy, STEPHEN G. WENTWORTH, came from England early in the eighteenth century, settling in New England. Mr. Wentworth came West

when a boy and settled in Missouri. He was prosperous in business and concluded his long and successful career as President of the Morrison-Wentworth Bank at Lexington, Missouri.

Mr. Wentworth was always a liberal contributor to educational and benevolent causes, and in 1880 he conceived the idea of founding, in honor of his deceased son, William Wentworth, a school for the Christian education of boys and young men. Suitable grounds and buildings were secured and the

Wentworth Military Academy

first session opened in September, 1880, with B. L. Hobson and Sandford Sellers as associate principals. At the end of that session Mr. Hobson retired, and with the exception of one year's leave Col. Sellers has been Superintendent ever since.

A charter was secured in April, 1881, and the name Wentworth Male Academy, under which the school began its existence, was changed to Wentworth Military Academy, and thus was started the first military school in the Missouri River Valley.

Recognition by the Government

In 1895 the War Department of the United States, recognizing the work done by the Academy in its military training, detailed an officer from the Regular Army as Professor of Military Science and Tactics and supplied it with ordnance and ordnance stores. This detail has continued to the present time, and supplies have been increased until the school is now provided with everything necessary for infantry and artillery drills.

In 1903, Col. W. M. Hoge resigned his

WEST BARRACKS IN WINTER

Post of the National Guard

In 1889 the Academy was made a Post of the National Guard of Missouri, and provision was made for annual inspections by State Officers and for granting commissions to graduates who were residents of the state of Missouri. Excepting in the matter of appropriations the same relation was established between the Academy and the State of Missouri as exists between West Point Military Academy and the United States.

position of Inspector of Accredited Schools for the University of Missouri and was chosen Associate Superintendent and Principal of the Academy. He remained in this position for twelve years and had an important influence in developing the standards of the Academy.

Col. E. A. Hickman, then a captain in the 1st Cavalry, U. S. Army, an alumnus of Wentworth, was detailed as Professor of Military Science and tactics. His untiring en-

Lexington, Missouri.

THE FIRST COMPANY AT WENTWORTH

ergy, good judgment and interest in boys, together with his experience as an officer in the United States Army, were a most potent factor in placing the Academy in the very front rank of military schools of the United States.

The World War in 1917 stimulated the interest of the country in military training, so that all the military schools of first class were compelled to enlarge their capacities. The attendance at Wentworth was doubled. But, while the war increased the attendance and the enthusiasm of the students, it worked a hardship on the school by taking

many of the best teachers as Army officers. Still the work of the school was carried forward.

At the close of the war the teachers on leave were discharged and returned to their duties at Wentworth. They were greatly benefited by their war experience and during the first year have put a great deal into the military and scholastic work. The present faculty is the most efficient the school has ever possessed.

There is every reason to believe that Wentworth is entering upon the most useful period of its history.

GENERAL REGULATIONS

As it is the object of the Academy to develop each cadet to his highest stage of efficiency, all the regulations for the daily routine are formulated with this object in mind. The schedule of calls will give the reader a knowledge of the routine of the day.

During the recreation period from 4:00 to 5:30 P. M. cadets are engaged in athletics or other activities about the Academy and are not expected to go more than two blocks from the Academy grounds, except by permission. It is not deemed advisable for cadets to be about town except on business or for reasonable recreation and yet it is not desired to take them entirely away from contact with civil institutions. Two days—Wednesday and Saturday—are therefore designated for

BOXING AT JUNIOR BARRACKS

freedom of limits during the recreation period, so that all may have opportunity for getting haircuts and attending to necessary purchases in Lexington.

No permits to call or to attend the picture show are granted to new cadets until after Christmas. After Christmas new cadets may call or attend the show on permit on Saturday evenings, provided their conduct and attention to duty has been satisfactory during the preceding week. During the fall term new cadets may attend the picture show in a squad on Saturday evenings.

Gambling in any form is forbidden.

The use of tobacco in any form is forbidden.

REQUIREMENTS FOR ADMISSION

Wentworth Military Academy makes no special examination for admission. It merely requires that boys be in good physical condition, of good character and reasonably instructed in rudimentary studies. The boy is assigned to that class for which he seems best prepared. *A certificate from other schools as to class standing is essential in classifying new cadets.* Special attention is given to the weak points in the boy's previous training and his deficiencies in any direction noted in order to be overcome.

It is recommended that parents place their sons in the Academy for the full course of four years. In this way the principles of manliness and character are most thoroughly impressed and no interruption occurs to prevent the fullest benefit from academic instruction.

Cadets should enter as near the beginning of the session as possible, and it is in all cases understood that this is at least for the entire session, or for that part of the school year remaining at time of entrance. Payments must be made accordingly.

No exception is made to this rule, except in case of sickness, necessitating permanent withdrawal. In such cases all unused deposits are refunded, and all expenses for board and tuition for the remainder of the session will be cancelled.

DISMISSAL

Wentworth enjoys distinction in being one of the best schools in the Middle West. It is in no sense reformatory in work and distinctly does not wish undesirable boys. In case of dismissal of a student from the school, the refund of money paid in or cancellation of indebtedness already incurred will be at the option of the management, and will depend upon the damage sustained by the school by reason of the cadet's misconduct.

Causes for dismissal are: Gambling, continued disregard of regulations, dishonesty

Lexington, Missouri.

of any kind, hazing in any form, disobedience of orders, immoral conduct.

The Academy reserves the right to demand the withdrawal of any student without the making of specific charges. If a boy's presence is felt to be unwholesome, or if he has a degrading influence on those around him, he will be asked to leave.

Special Directions to Parents

Read carefully the terms and requirements.

Fill out blank application at end of catalogue.

Inform the Superintendent fully in reference to the disposition of the boy for whom application is made and the character of the education intended for him.

No time is set apart for the cadets to visit their homes, or other places, except for the Christmas holidays; the interruptions produced by going home at any other time are a great disadvantage to the cadets. Hence furloughs are not granted except in case of severe illness.

Every boy's teeth should be attended to before he starts to school, so that his attendance upon school duties may not be interrupted by dental work.

Evidence of successful vaccination must be shown or the cadet must be vaccinated on arrival.

It is strongly recommended that all students before entering take the anti-toxin inoculation as a precaution against typhoid fever. This inoculation is required of all members of the Army and Navy of the United States and in the leading military colleges. Students who have not taken this inoculation at home will receive it from the Academy Surgeon, unless there is special objection on the part of parents. The charge will be \$2.50.

Deposit all funds for general expenses, as well as pocket money, with the Superintendent, and let there be a definite understanding as to the amount to be allowed for incidental expenses.

The allowance for pocket money should be

very moderate, not to exceed \$2.00 per week; free allowances, instead of insuring the boy's happiness, contribute to his demoralization.

Boxes of edibles, other than fruit, should not be sent.

All trunks and baggage should be marked with owner's name and address.

THE TRUMPETER

During the past eleven years the school paper, *The Trumpeter*, has been published weekly during the session. By the regular

TRUMPETER STAFF

Left to right beginning with top row:

DOTY (CARTOONIST), CAPT. HINTON (FACULTY ADVISER), SCOTT (JOKE EDITOR), McMANUS (EDITOR-IN-CHIEF), SCALING (CARTOONIST), GORRELL (BUSINESS MGR.), PERKINS (REPORTER), AUSTIN (REPORTER)

presentation of events at the Academy, the weekly paper has become an important factor in the school.

The Trumpeter is in the hands of cadets, who derive a great deal of pleasure as well as valuable and practical journalistic experience in the gathering and writing-up of news.

For ten years the paper was a four-page four-column publication. Last year it was increased to the five-column size.

A sample copy of this paper will be sent free to anyone requesting it. The subscription price is \$2.00 a year.

INTELLIGENCE DEPARTMENT AT WENTWORTH

(A paper by Captain J. W. Bare read before the North Central Academic Association, April 16, 1926.)

During the late war the United States War Department was forced to provide a quick means of accurate, scientific classification of the men entering the service. Hearsay and statement could not be relied on.

Thereupon a committee of the American Psychological Association and the National Research Council was formed and certain tests were composed. Before they were ordered into general use, however, they were thoroughly tried out in four national army cantonments. From time to time they were revised to increase their practical usefulness. By June these tests had taken definite form in what was known as the Alpha and Beta Group Tests and for individual examination the Stanford Revision of the Simon-Binet Tests as described in Prof. Terman's "The Measurement of Intelligence."

The writer, at that time an instructor at Wentworth Military Academy, was called to this work in the army and received permission from the school authorities to be absent on leave for that purpose. He received a commission and was sixteen months in the service. Until the armistice he personally assisted in the examination of over two hundred thousand men.

Immediately after his return to the Academy it was decided to give this same Army Test to the cadets of the school, especially the Alpha Group Test and in backward cases the revised Simon-Binet Test.

When the results were in, each case was judged with reference to its own chronological age and, by means of the mental age table given in the Examiner's Guide, each boy was rated as making scores for his age that were average or above and below accordingly. Thus if John Doe, a lad of sixteen years of age, chronologically speaking, made a score approximate to the score given in the table for a lad of normal intelligence at sixteen, he was rated as average. If his score was nearer to that expected of a normal youth of eighteen, he was considered above the average. If his score fell to the level of that which the table gave as normal for a lad of fourteen, he was rated below average. No attention was paid to the number of years' schooling he was supposed to have had.

It was felt that if such ratings correlated with teachers' estimates to any reliable degree, the trial would be justified. If it proved at all reliable, then it would prove a quick and ready means at the opening of school to determine each student's intelligence and indicate what grade of work might reasonably be expected of him. If we had such a means, then considerable advantage might accrue. These were some of the points to be settled satisfactorily.

The cadets of the school were assembled the latter part of October as soon as the material arrived. We wished to have it given on the day following that of the opening of school. At one sitting, within the compass of an hour, the entire corps was examined.

The papers were then hurried over to another room where eight or ten Seniors of known high intelligence, previously selected, instructed and trained, were waiting. Each man took one of the eight tests and the papers were half scored by

night. Another day or so completed the scoring. With each scorer scoring the same test throughout, a high degree of accuracy and speed was gained and maintained. Their work was checked at first closely and later only here and there, and it was found—as in the work in the army—that the percentage of error and inaccuracy was exceedingly low and for practical purposes entirely negligible. Two men were assigned to adding, sorting, classifying and rating the scores as Very Bright, Bright, Average, Below Average or Poor and Very Poor. These ratings were then taken up by the faculty and the principal and correlated with their individual estimates of each boy's intelligence. This correlation proved very high and this, we felt, justified any subsequent confidence that might be placed on the Test. At least it so satisfied the faculty that the authorities decided to make the test a permanent feature of the school's work with the boy.

Here it must be cautioned that much depends upon the manner of conducting the Test. If the Army instructors thought it sufficiently important that a group of well-known and thoroughly competent psychologists of the country should spend three weeks of the entire ten weeks' training in merely the mechanics of delivering and conducting the examination it is clear no layman nor untrained investigator would achieve the best results.

A criticism that has been directed against the Test was that it was pre-eminently worked out for Army purposes, while on the other hand the old line of regular officers objected to it as being too academic and impractical. Since they who built these tests sought to measure intelligence only and gave norms for mentality and mental ages, there seemed no question remaining why it should not function in the school for such purposes as in the Army. As for the officers in the service, it was the general rule rather than the exception in all camps, that, before the summer was over Intelligence measurement was so thoroughly sold that the officers came to demand the scores, the personnel office inserted them on the records and both the psychiatrists (that band of neuro- and pathological experts who formed the link between the medical officers proper on the one hand and the psychological officers on the other) for their recommendations of elimination and recommendation to domestic or labor battalions and the line officers for their recommendations for officer personnel as well, insisted on having our findings before making their recommendations.

Another criticism was made to the effect that it measured only intelligence and not other qualities of leadership and ability such as personality, control and leadership, technical knowledge of military tactics, etc., etc. It was singularly unfortunate that these psychologists could not devise some magical means whereby all the work of discovering and training the superfit, entering them at one end of the building and passing them out at the other, tagged as majors, mule-drivers, lieutenants, corporals, blacksmiths, and "discharged" undesirables. But the compliment implied was gladly accepted, nevertheless by that hurried and harried committee.

At Wentworth it was hoped that these results would assist in determining the following:

1. An early and approximately accurate and reliable estimate of each boy's intelligence and ability

as he entered school, before he spent a single day in the class room.

2. To thereby give the teacher who should have that student in his class a relative estimate of the pupil's ability.

3. To sift out the few who were excessively low and give individual attention to their cases, making provision and disposition of them accordingly.

4. To distinguish the mentally feeble from the morally inert or indifferent, even disobedient, and provide justice for each case.

5. To give due and prompt credit for effort, as for instance in case where a lad of average intelligence made more progress or did a better grade of work through application than one of higher ability.

6. To assist the Military Department in their selection of personnel or for their promotion of officers.

7. In short to assist the principal and faculty by a further means of knowing its student personnel and providing efficiently and more satisfactorily for them.

At present schools are more or less at the mercy of those who would send their sons to school with camouflaged records and reputations. And these same schools coolly accept all that are gathered in and with them a responsibility that is as startling as this method is naive, a responsibility to make something out of a boy whether such be possible or not.

At Wentworth at least thirty or forty students were reclassified, or work readjusted or given special pedagogical attention, or tutoring was recommended, or, as in half a dozen cases of almost an utterly hopeless condition mentally, the students were advised to return home.

The saving of time and money, to say nothing of general efficiency otherwise, we feel justified our work this year along this line.

COURSES OF STUDY

THE ACADEMY PROPER

MANY of the cadets now at Wentworth are preparing themselves for college entrance. So the curriculum is arranged with special attention to the requirement for admission to leading

universities. Graduates of Wentworth are prepared to enter without examination any college or university which schools. Last year there were graduates of Wentworth in the University of Missouri, the University of Kansas, the University of Wisconsin, the University of Oklahoma, the University of Chicago, the University of Colorado, Johns Hopkins University, Westminster College, and the United States Military Academy at West Point.

Admission

Any boy of good character who has completed a Grammar School course or its equivalent will be admitted to the College Preparatory Department. In case he is deficient in some branch he may make it up in the

Grammar Department. Work done in other academies or high schools of recognized standing will be accepted to count toward graduation. *A student on entering must bring with him a statement of his previous work from the principal of the school he last attended.*

The College Preparatory Course is constructed with reference to the increasing tendency on the part of the higher institutions to allow a wide choice in entrance requirements. Thus a wide number of electives is offered, whereby the student is enabled to prepare himself for the particular line of study he wishes to pursue in college.

Graduation

The completion of fifteen units of work so arranged that the student will meet the entrance requirements of any standard university or college will entitle him to graduation; provided, (1) that in addition he has completed the prescribed year's course in Military Science, (2) that he has proved himself proficient in public speaking, (3) that he has spent one full school year in residence at the Academy, (4) that he has paid all fees due to the Academy.

COMMERCIAL COURSE

For those who do not expect to go to college the Business Course is offered. It is not a mere drill in purely commercial subjects; it aims to make the student cultured

Graduation

Upon the completion of fifteen units of work, selected in accord with the prescribed course of study, a student is entitled to grad-

FRESHMAN CLASS

and well informed, able to be at ease in the company of educated people.

Admission

The requirements for admission to the Business Course are identical with those for the College Preparatory Course.

uation; provided, (1) that in addition he has completed the prescribed year's course in Military Science, (2) that he has proved himself proficient in public speaking, (3) that he has spent one full school year in residence at the Academy, (4) that he has paid all fees due to the Academy.

Lexington, Missouri.

MUSIC

Instruction in band instruments and in mandolin and guitar is given by Maj. F. A. Day. Major Day is an exceptional performer on brass instruments, reed instruments and on the mandolin and guitar. His twenty years of experience as instructor in the various band instruments and in the string instruments give him an endowment rarely found for teaching.

The piano department is in charge of Mrs. Algernon Smith. Mrs. Smith has studied under some of the best instructors in America and is a graduate of Central College. She has had several years' experience as a teacher of piano.

Instruction in violin may be obtained from Miss Emory Todhunter.

SOPHOMORE CLASS

THE GRAMMAR SCHOOL

The Grammar School is intended for boys from ten years old and up, who have not yet completed grammar school work. It offers instruction in English Grammar and Elementary Composition, Penmanship, Practical Arithmetic, Physiology, Descriptive Geography, Reading, Spelling, United States His-

tory, and Introductory Algebra. The work extends through the Eighth Grade. On the completion of it a boy receives promotion to the Academy proper.

The work of the Grammar School is set forth more fully in the circular of the School for Small Boys.

	Spanish I	Physics	American History
	Manual Training II	English History	Government ($\frac{1}{2}$)
		Bookkeeping	Economics ($\frac{1}{2}$)
		Military Science	Mechanical Drawing
			Military Science

The following units of work are required for graduation in this course:

English 3, History 2 (one of which must be American History), Government $\frac{1}{2}$, Mathematics 2, Science 2, Foreign Language 2. (Both of these units must be of the same language, i. e., both Latin, French, or Spanish.) Total units of required work, $11\frac{1}{2}$.

Three and one-half units may be elected from the remainder of the above subjects. No study, not listed in the above as a College Preparatory subject, may be elected by the student who expects to graduate in the College Preparatory course.

COMMERCIAL COURSE

(Four Subjects to Be Taken Each Year)

			Military Science

Of the sixteen units necessary for graduation in this course, eight and one-half are required subjects, and six and one-half are elective. The subjects required are: English 3 units, Mathematics 2 units, History 2 (one of which must be American), Government $\frac{1}{2}$, Science 1.

Fifteen units of work are required for graduation in any of the above courses. In addition there must be completed the prescribed work in Military Science and Tactics.

Only students graduating in the College Preparatory Course will be recommended for college, and the student must maintain an average of 80 in every subject.

No student may take less than four studies, unless a written request from the parents is presented.

No student may take more than four studies unless he is making at least 80 in all studies.

THE COURSES IN DETAIL

THE ACADEMY recommends that the student continue as far as possible the study of any subject which he has begun. A good knowledge of a few subjects is better than a slight knowledge of many subjects.

ENGLISH

English is recognized as a fundamental subject. The study of it continues throughout the four years and a correct

use of the language is expected in every department. While the cultural value of English is fully realized, the practical use and application in the world of business is also emphasized. An adequate knowledge of English Grammar, ability to write correctly and effectively, and a familiarity with the works of the best American and English authors are expected of every graduate. The intimate relationship between language and thinking is kept constantly in mind and throughout the whole course oral and written composition is required. In addition to the classics, special attention is also given to the field of modern literature and the development of the short story.

FIRST YEAR: A complete review of Elementary Grammar, exercises in punctuation, capitalization and sentence structure. Original composition, oral and written. Special attention to letter writing. Reading of *Lady of the Lake*, *Treasure Island*, *The Man Without a Country*, *Christmas Carol*, *Two Years Before the Mast*, *The Ancient Mariner*, *Teahoe*, *The Last of the Mohicans*, *Snowbound*, *Lamb's Tales of Shakespeare*, *Robinson Crusoe*. Brief study of the lives of the authors of the classics read. Text, *Ward's Sentence and Theme*.

SECOND YEAR: *Rhetoric*. A continuation of the work in composition. Study of Unity, Coherence, Proportion and Emphasis in the whole composition. Intensive practice in Narration, Description, Exposition and Argumentation. Reading of the *Tale of Two Cities*, *Enoch Arden* and *Tennyson's Poems*, *The Oregon Trail*, *Last Days of Pompeii*, *Bret Harte's Stories*, *Merchant of Venice*, *As You Like It*, *Silas Marner*, *Lorna Doone*, *The Iliad of Homer*, *Evangeline*. Text, *Herrick & Damon's New Composition and Rhetoric*.

THIRD YEAR: History of English Literature from the Anglo-Saxon period. The writing of weekly themes with especial attention to vocabulary and thought development. Instruction in keeping

note-books. Book reviews, Literary criticisms. Detailed study of types of the short story. *Macbeth*, *Hamlet*, *Carlyle's Essay on Burns*, *The Golden Treasury*, Selections from Wordsworth, Burns, Browning, and other English Poets, *Beowulf* (in translation) *Cranford*, *The Scarlet Letter*, *Sesame and Lilies*, *Henry Esmond*, *Paradise Lost*. Text, *Pace's Introduction to English Literature*.

FOURTH YEAR: General study of American Literature. Writing of more extended themes. Attention given to the development of the modern short story. Reading of Poe's *Poems and Tales*, Longfellow's *Narrative Poems*, *The Golden Treasury*, *DeCoverly Papers*, Selections from DeQuincy, *The Princess*, Franklin's *Autobiography*, *Kenilworth*, *Twice-Told Tales*, Wilson's *Principles of Democracy*, Selections from American Authors. Text, *Pace's Introduction to American Literature*.

The reading is based upon the recommendations of the National Conference on College Entrance Requirements in English.

MATHEMATICS

The aim of the Department of Mathematics is to enable the student not only to solve stated problems, but to do original work.

FIRST YEAR: Algebra to Quadratics. Text, Hawkes, Luby and Touton's *First Course in Algebra*.

SECOND YEAR: *Plane Geometry*. This year's work covers the whole of Plane Geometry. A few more important theorems will be emphasized, original problems will be solved, and the connection between Algebra and Geometry established. Text, Wentworth-Smith's *Plane Geometry*.

THIRD YEAR: *Algebra* completed. This course contemplates a detailed study of Quadratics, the Binomial Theorem for positive integral exponents, logarithms, ratio and proportion. Graphs will be used extensively in the solution of equations. Text, Wells and Hart's *Algebra*.

FOURTH YEAR: (First Half) *Solid Geometry*. This includes both the solid and the spherical geometry. Text, Wentworth-Smith's *Solid Geometry*. (Second Half) *Trigonometry*. This work includes logarithms, the functions of angles, and the solution of right triangles and oblique triangles. Text, Kenyon-Ingold's *Plane and Spherical Trigonometry*.

HISTORY

The work in History will deal not merely with occurrences and dates, but with the interpretation of important events. In every year the student will be required to keep a complete note-book and fre-

quently to draw maps. There will be required considerable collateral reading from books in the school library.

FIRST YEAR: *Ancient History.* Oriental History will be studied as an introduction, and then Greek and Roman History. The student who expects to study Latin should take this work in his Freshman year. Text, Brested's *Ancient Times*.

SECOND YEAR: *Medieval and Modern History.* This course extends through the year and treats of the dissolution of the Roman Empire and the development of the European nations. Text, Harding's *Medieval and Modern History*.

THIRD YEAR: *English History.* This course is given during the entire year. Text, Cheney's *English History*.

FOURTH YEAR: *American History.* This follows English History and deals largely with the political, social and institutional development of the United States since 1763. Text, Muzzey's *American History*.

American Government. The student is made to understand the local government, the state government, and then the national government. The class will visit the city hall of Lexington and the court house of Lafayette County. It will study the functions of the various municipal and county officers. There will be considerable collateral reading. This course comes during the first half of the year. American History is prerequisite.

Economics. This course is offered during the second half of the Senior year, and is intended to make the student acquainted with the relations existing between the industries, the relations between the industries and the individual, the other economic problems and conditions with which the individual is brought in contact. This is a very interesting and practical course.

LATIN

The instruction in Latin is designed to enable the student to read the best works of the language with interest and facility. He is trained to read Latin aloud and to do composition work based on the text. No student will be allowed to begin the study of Latin until his second year and until he has become thoroughly grounded in English grammar.

FIRST LATIN: This is studied with a view to mastering the syntax of the language and the formation of a good working vocabulary. Text, Scott's *Beginner's Latin*.

SECOND LATIN: Four books of Caesar will be read along with a careful review of the grammar. The equivalent of one recitation per week will be devoted to composition. Text, D'Ooge & Eastman's *Caesar*.

THIRD LATIN: The reading of five books of Virgil's *Aeneid* and of a thousand lines of Ovid's *Metamorphoses*. The scansion of Latin hexameter will be taught. Text, Knapp's *Virgil and Ovid*.

SPANISH

The work in Spanish is particularly valuable to the students from the Southwest and is taken by many candidates for the Business Course diploma as well as by those who expect to enter college. No student will be allowed to begin the study of Spanish until his second year and until he has become thoroughly grounded in English grammar.

FIRST SPANISH: The beginner's course includes a thorough drill in pronunciation, the mastery of the grammar, the writing of Spanish composition, and the reading of one hundred pages of easy prose. Text, De Viti's *Spanish Grammar*.

SECOND SPANISH: In this course there is a continuation of the work in composition and the reading of four hundred pages of modern prose. Text, Geddes & Josselyn's *Gil Blas*.

FRENCH

French is considered by most Modern Language teachers as the most important of Modern Languages. It is so interesting and important a subject that it is offered as an elective in all three courses.

FIRST FRENCH: The beginner's course includes a thorough drill in pronunciation, the study of the grammar, the writing of French composition, and the reading of seventy-five pages of easy French prose. Text, *New Chordinal French Course*.

SECOND FRENCH: In the second year there is a continuation of the work in pronunciation, composition, and the reading of three hundred and fifty pages of modern French prose. Text, *L'Abbe Constantin*, by Francois.

NATURAL SCIENCES

In all the courses in Natural Science four periods a week are spent in the laboratory, two periods of laboratory work being the equivalent of one in recitation. Laboratory manuals are kept and every experiment performed recorded in detail. The Wentworth laboratories in Physics and Chemistry are among the best in the state.

FIRST YEAR: *General Science.* This course, as the name implies, treats, in a very brief way, all of the natural sciences. It is designed especially for the purpose of introducing the Freshman to the field of science, so that he may not only get something of practical value but also be better prepared for special work in any branch of science. Text, Caldwell & Eilanberry's *General Science*.

THIRD YEAR: *Physics.* The class makes a complete study of elementary Physics and performs in the laboratory forty experiments. In addition the instructor performs numerous experiments in the

lecture rooms. Text, Carhart & Chute's (Revised) *Physics*.

FOURTH YEAR: *Chemistry*. This course covers a year in recitation and laboratory work. In addition to the regular work the class visits the local ice-plant and gas works. The chemical theory of mixtures, ionization, acids, bases, salts and compounds is studied. Text, McPherson & Henderson's *Chemistry*.

COMMERCIAL

PRACTICAL ARITHMETIC: This course is for the purpose of getting the student well grounded in the fundamentals and to enable him to perform all of the fundamental processes quickly and accurately. As a prerequisite of Business Arithmetic it is intended to fit the student to take up Business Arithmetic proper, so that time will not be lost in getting the fundamentals. Text, Hamilton's *Complete Arithmetic*.

BUSINESS ARITHMETIC: For those who do not intend to enter college, but to go into business upon leaving the Academy, the study of Business Arithmetic offers many of the problems which confront a business man. Special attention is given to simple and compound interest and to partial payments. Text, VanTuy's *Business Arithmetic*.

BUSINESS METHODS: A course in Business Methods is given during the first half of the Freshman year. This course is a prerequisite of bookkeeping, and makes the student familiar with the various business papers, forms and practices. Text, Schack and Gross' *Elements of Business*.

COMMERCIAL GEOGRAPHY: In this course it is aimed to discover the territorial distribution of industries and of location of lines of communication and transportation. The United States and the outlying possessions are given special attention. This course comes during the second half of the first year. Text, Dryer's *Elementary Economic Geography*.

BOOKKEEPING: The course in Bookkeeping is carried on entirely by the laboratory method. Two units are offered. No student who has not had the course in Business Methods may take Bookkeeping. This two-year course is designed to prepare the student so that he may efficiently keep a set of books—either single or double entry—as well as to make him familiar with banking forms and accounting. Text, *Twentieth Century Bookkeeping and Accounting*.

STENOGRAPHY: The course in Stenography includes two periods a day—one devoted to shorthand, the other to typewriting. The work is by the laboratory method. At the end of the course the student should be able to take down ordinary business dictation and transcribe it rapidly on the typewriter. In the typewriting department are Remington, Royal, and Underwood machines. The care of the machine is taught along with its operation. Two years' work in Stenography are offered. Gregg system.

COMMERCIAL LAW: This course is provided especially for the Seniors in the Business Course. It is

expected to give them some knowledge of the laws and practices governing business transactions. Text, Gano's *Commercial Law*.

MANUAL TRAINING

The work in the Manual Training Department is entirely by the laboratory method. Two years of Shop work and one of Mechanical Drawing are offered.

SHOP WORK: First and Second years. This course covers the essentials in woodworking. Each student is assigned to a work bench fully equipped with tools. The simple problems are first worked out and then the student progresses to elementary cabinet making. Many useful articles of furniture are designed, constructed and finished by the class.

MECHANICAL DRAWING: Third year. This course is primarily for students preparing for technical institutions. It begins with the drawing of straight lines and circles, and proceeds to the drawing of designs for furniture and machine parts. Plane Geometry and woodwork are prerequisites.

MUSIC

Private instructions from experienced teachers is given in piano, voice, violin, mandolin, guitar and all band instruments. The cost for such instruction is \$60.00 per year.

Various musical organizations—the quartette, the orchestra, and the band—appear in public at frequent intervals.

PUBLIC SPEAKING

The Department of Public Speaking offers special advantages to those desiring training which will fit them to stand on their feet, think and talk. Correct platform attitude, breathing and gesture are given particular attention. Each student is developed in a repertoire best suited to his individual capacity and is, at the same time, developed in the grace and ease which will enable him to meet those occasions when he is called upon for extempore speech. The work is individual—except for the Senior class in oratory—and the needs of each student can thus be best studied and supplied. The fee for individual instruction is \$70.00 per year. The Seniors receive instruction in class free of charge.

The winner of the declamation contest at Commencement will receive a gold medal, awarded by the Academy.

MILITARY SCIENCE

Practical military instruction is, of course, given to every cadet in school and he is required to memorize the General Orders for Guard Duty.

The theoretical course is given five days a week for a year and is required of all graduates, in addition to the fifteen units. The text books are the *Infantry Drill Regulations*, *Manual of Interior Guard Duty*, *Field Service Regulations*, *Firing Regulations of the U. S. Army*, and such other books as the instructor thinks advisable.

CAPT. C. L. MITCHELL.

REPORT OF THE PROFESSOR OF MILITARY SCIENCE AND TACTICS

WENTWORTH MILITARY ACADEMY,
Lexington, Missouri.

May 1, 1920.

FROM: Professor of Military Science and Tactics.

TO: The Superintendent.

SUBJECT: Annual Report, 1919-'20.

1. The following report of the work of the Department of Military Science and Tactics for the school year 1919-'20 is hereby submitted:

2. Special Regulations number 44, War Department 1919, which prescribes the courses of Military Training, was received early in the school year and the prescribed courses were immediately entered upon.

The courses laid down in Special Regulations number 44 are excellent, far in advance of any instructions heretofore published for the work in military schools.

The War Department is interested in the work carried on at the military schools and is endeavoring in every way to make it successful. A liberal amount of equipment is now furnished and of the very latest model. For instance Wentworth now has on hand new Springfield rifles (the best military rifle in the world), latest model personal equipment and special arms as follows: Browning Machine Guns, Browning Automatic Rifles, Stoke's Mortar, 37MM. Gun (1 pounder), Hand Grenades, Rifle Grenades, and Engineer Sketching Outfits. The allowance of ammunition, both gallery and service, is liberal and permits of several hours of shooting by all students.

3. During the year an excellent indoor gallery range of twelve targets was installed. I believe there is no finer gallery range in any school in the country. This gallery range provides an excellent means for indoor shooting during the winter.

An outdoor fifty-yard range for firing service ammunition with the rifle and pistol has just been completed. This range provides an excellent means of giving instruction in firing in all positions, using the service ammunition.

4. A decided improvement has been made in the method of keeping the student's individual record. Now a record and rating form is kept of each student in the military department. This record and rating form shows the amount of Military instruction received and progress made by each student enrolled in the Reserve Officers' Training Corps. When students enroll in another military school or college this record of the student is sent on to his new school, thus giving the student credit for all military instruction received.

5. The courses of instruction given during the year have been the Senior Basic for those students receiving their first and second years of Military instruction and the Advanced Course for those in their third and fourth years of military instruction. Students who are graduates of the Advanced course are eligible for commissions in the Officers' Reserve Corps.

6. The military instruction has throughout the year laid great stress on neatness, uniformity, cleanliness, promptness and attention to personal appearance. This is to the student a most valuable part of his military instruction.

7. The spirit, loyalty, and morale of the student body is excellent. This is most gratifying, as it is the spirit and morale of the Corps that makes possible the maintenance of a high standard of discipline and efficiency.

Great credit is due the Cadet officers and non-commissioned officers of the corps for their excellent example in personally observing the rules, regulations and customs of the school and requiring of others their observance of same.

8. That the students are interested in the military work is evidenced by the large attendance to the Summer Reserve Officers' Training Corps Camp. Last year 72 attended the camp at Camp Funston, Kansas, and about the same number have signified their intention of attending the camp this year at Camp Custer, Michigan.

9. In conclusion I wish to state the work throughout the year has been most satisfactory. I desire to express my thanks to the student body for their co-operation in all matters and to the faculty my appreciation for their assistance in instructing in military work.

C. L. MITCHELL,

Captain of Inf., P. M. S. and T.

THE RESERVE OFFICERS' TRAINING CORPS

Established at Wentworth Military Academy by Special Authority of the Secretary of War.

(By Captain C. L. Mitchell, Infantry, U. S. Army, Professor of Military Science and Tactics at Wentworth Military Academy.)

The Reserve Officers' Training Corps was established in 1916 by an act of congress, known as the National Defense Act, for the purpose of giving to the educated young men of the country an opportunity to fit themselves to be junior officers of the United States Army.

The system of instruction prescribed is designed to prepare young men for the intelligent performance of the duties of commissioned officers without interfering with their education or civil careers.

CLASS IN TOPOGRAPHY

ON A FIELD PROBLEM

The student or the graduate is under no more obligation to serve the country in time of war, because he has served in one of the R. O. T. C. Units, than any other citizen. The government is highly interested in the development of the military schools. It is intended that the military instruction shall be interesting, healthful, physically helpful, and such as will develop in students the ability to act as leaders and respect for authority. Military instruction is intended to be in addition to all other regular studies. Military schools lose none of the good qualities that have made them so popular in the past and given them ever increasing patronage, but have them increased and at the same time parental and school jurisdiction is not interfered with in the least.

The course of military training for the Reserve Officers' Training Corps is prescribed by the War Department. This course is being systematized and made progressive. The complete course is four years and corresponds to the four years of high school or college work. Cadets may graduate with only one year at the institution as in the past, but a cadet should take at least two years' military work in order to secure best results as a graduate of a military school.

All students at Wentworth are members of the R. O. T. C., except those certified by the examining doctor as being physically unable to take the ordinary military instruction,

Lexington, Missouri.

and these cadets receive such training as they are able to perform. Physical training forms an essential part of military instruction.

Briefly the object of the Reserve Officers' Training Corps is to provide systematic military training at civil educational institutions for the purpose of qualifying students as reserve officers in the military forces of the United States, should they so elect to serve in time of war. It is intended to attain this object with the least practicable interference with their general or professional studies, and to employ methods designed to fit men physically, mentally, and morally for the pursuits of peace.

It is believed that such military training will greatly aid in the development of better citizens. The fact that there are over 100,000 students enrolled in the R. O. T. C. in different institutions throughout the country is an index to the popularity of the Reserve

PLAYING WAR

Officers' Training Corps. About 10,000 of these are pursuing the advanced course with the avowed intention of entering the Officers' Reserve Corps upon graduation.

Some of the advantages of the R. O. T. C. in detail are as follows:

1. Cadets while afforded government supervision and aid in the R. O. T. C. are still under the control of parents and school authorities.
2. Student members receive from the government, yearly, for purchase of uniforms about eighteen dollars. This amount it is believed will be increased in the near future.
3. Those students who desire to attend a six weeks' summer military training camp, are given transportation from school to camp and return, rationed and uniformed and given medical attention while at camp, all at government expense and with absolutely no obligation for future military service.
4. Cadets who have had two years' military training and who agree to attend one

Wentworth Military Academy

summer camp, and take an advanced course of military training during their 3rd and 4th years at the school, receive about 40 cents per day cash commutation of rations. This applies to juniors and seniors who are recommended for the advanced work.

5. Graduates receive certain military credits for college entrance, not heretofore given.

6. Distinct insignia are worn by members of the R. O. T. C. and all other persons are prohibited by law from wearing same.

7. The government has issued to Wentworth for the instruction of cadets the latest model arms and equipment, including rifles, belts, pack equipment, Browning machine guns, automatic rifles, Stoke's mortars, 37 MM gun, and a liberal supply of ammunition.

THE GOVERNMENT
INSPECTORS
MAJOR ELLIOTT
CAPTAIN MORRIS

A FOOT BRIDGE

8. Graduates may qualify for commissions in the Officers' Reserve Corps and receive commissions signed by the President of the United States. This is entirely optional on the part of the cadet.

9. Members of the R. O. T. C. who graduate at Wentworth and who have devoted the usual amount of time to military work receive credit for same on their military record, which is always available to the student should he so desire or need such record.

10. Graduates are fitted to give military instruction in public schools.

11. The military training is an important factor in helping the cadet to develop a high sense of personal honor, duty, and loyalty to self and country; to encourage him care-

for future military service and this is assured non-interference with civilian pursuits. The government is repaid in the knowledge that another citizen is ready. It was the willingness to serve on the part of our young college men, who had received the benefits of military instruction, that made possible the speedy and victorious ending of the World War.

THE TEN WENTWORTH

REPORT OF THE ATHLETIC DIRECTOR

WENTWORTH MILITARY ACADEMY

Lexington, Mo., May 1, 1920.

FROM: The Athletic Director

TO: The Superintendent

SUBJECT: Athletic System in Wentworth

A survey of the entire school year shows Wentworth to have been particularly favored in athletics. After getting away to a slow start our football team won the championship in the Missouri State Conference, a Secondary School and College organization of which we are a member. The basketball season was very similar. After losing three of four games

CAPT. WIKOFF

TENNIS COURTS

on our first road trip we finished strong and lost no more games. We again won the championship from Kemper in the final game, this time on our court.

WINNER AND FINALIST IN FALL
TENNIS TOURNAMENT
HOPKINS JENKINS

FOOTBALL TEAMS

in one of the most thrilling finishes ever seen in an athletic season. So far baseball is repeating the two past seasons—losing at first and only recently striking a winning stride. On the other hand track work has started with a rush as evidenced by our one sided defeat of two of Missouri's leading colleges. Tennis is yet to be decided. The Varsity record has been one of which we are justly proud. Letter sweaters were given the "W" winners in each sport and championship team wear the gold emblem of their sport.

Our system of mass athletics has also proved an unusual success for its first year.

CHEER LEADERS

BEELS

SCOTT

JONES

Wentworth's system, we believe, is unique and brings every cadet into some form of competitive athletics without the dryness and continual prodding as under other systems with which we are familiar. The system is based on the Company of the Military Organization. Company teams were organized in every major and minor sport. During the

Wentworth Military Academy

"A" COMPANY BASEBALL TEAM

HAMMOND, PARMENTER, CONLEY, CLAMMER, FRANCIS,
MONNIG, HOUSER, MILLER, J. M., FLETCHER

"C" COMPANY BASEBALL TEAM

GROSS, MILLER, A. C., GOLDEN, MCMANUS, MOORE,
DOYLE, LIGHTLE, SANDERSON, WAGNER, BREON

football season 200 cadets were playing practically every day and without compulsion. In addition cadets were busy playing schedules in Cage Ball and Tennis. Practically every man in school entered athletics before Christmas in some form or other in addition to his Military drills. Not only were the players themselves kept interested, but large and enthusiastic crowds of ardent supporters witnessed every contest. The good work was kept up after Christmas with sports adapted to the proper season and as much interest was shown as was in the Fall.

The "W" Club aided very materially in keeping up the interest in the company games, both by their active aid and support and financially. The "W" Club is the strongest organization in school and is made up of all the men winning the Varsity "W" in any sport. There were 34 active members this year.

For competition in a certain sport a cadet is awarded a specified number of athletic "credits" and during the year he has to get a total of 20 of these credits. The number given in each sport is such that the cadet will have to enter different sports at different periods of the year to secure the total. It is not possible to make them in a short time nor is he kept continually at the grind. If any cadet at the end of the year has fallen short of his total he will have to enter a special class in track to make this up. However, at the present writing there are very few of such men.

The sports competed in to date are: Football, Cage Ball, Tennis, Basket Ball (two series), Soccer and Track. Base Ball, Field Day, another Tennis Series and Competitive Drill are things yet to be decided. Boxing and wrestling tournaments had to be abandoned owing to press of other affairs; but these and other sports, including Swimming and Volley Ball, will be included another year. During the year an effort was made to suit the work to the individual, according to the kind of development needed. Points were awarded each company according to the place in which it finished in any competition and the winning or Best All Around Company will be awarded medals at the end of the year—a medal for each man. The standing of the companies to date is as follows: C Company, first, 25 points; B Company, second, 22 points; A Company, third, 17½ points; D Company, fourth, 16½ points; E Company (small boys), fifth, 1 point. Space prohibits giving the winner in each sport which in itself would tell an interesting story of the intense interest of the Companies.

In order to use this plan of athletics our equipment must be complete and of the best. We were able to use three fields for practice work, especially in football and baseball. Each of these fields comprises several acres and furnishes plenty of room for more than one team. Soccer and Cage Ball grounds were laid off on Marine Hall Field. We have in full operation three excellent rock tennis courts and one dirt court, all kept in top condition. Two more courts are now under construction and will be ready for use in a short time. The track has been resurfaced and curbed and is now probably the best quarter mile Preparatory School track in this part of the country. When the new addition to our

SECOND YEAR FOOTBALL MEN

HOUSER, LABRUNERIE, BARRY, MOORE, HOLLIS, COOKE

already excellent gymnasium is completed we shall have what is probably the largest gymnasium floor space in the state, barring none. It will be fully equipped with modern apparatus and mats, two large basket ball courts, a large stage, regulation white tile swimming pool with filter and disinfecting plant, and plenty of locker rooms and showers. In addition our outdoor swimming pool is still in constant use in good weather. We feel that our athletic grounds are the most commodious and best equipped of any in the state with the exception of those of the University itself.

We are of the opinion that the Wentworth system is far above the average and this year's results have been of a nature to bear this out. Every man is given the proper amount of work and at the same time is given the thrill of being on a competing team and learns the lessons of competition. Another year the system will be enlarged and perfected and we believe no school in America will be better fitted to look after the physical welfare of each boy placed in our trust, along with the scholastic and military work, than Wentworth.

LESTER B. WIKOFF,
Director of Athletics.

EXPENSES

REQUIRED OF ALL

Amount paid on entrance as follows:	
Board, tuition and laundry.....	\$350.00
*Uniforms	142.00
Deposit for books and stationery.....	15.00
Athletic, library and lecture fee.....	10.00
Total (first term).....	\$517.00
Amount due January 1st for second term, balance on board, tuition and laundry	
	\$350.00
Grand Total for entire session.....	\$867.00

*The charge for uniforms includes the following items: 3 O. D. cotton shirts, 2 O. D. wool shirts, 2 pairs khaki breeches, 1 campaign hat, 1 pair wool spiral puttees, 1 olive drab serge uniform, 1 olive drab overcoat, 1 black tie, gloves and collars, hat cord and collar ornament, 1 olive drab sweater, 1 web belt. The uniform will be of exceptionally good 20-ounce English imported serge. This material was secured through a stroke of good fortune, since good olive drab serge at present is exceedingly scarce. The overcoat is of heavy wool, well lined, and will be cut on the officers' model, double breasted. The spiral puttees also are imported and are of the highest grade available.

Laundry charges do not include the expense of cleaning uniforms.

There is no charge for consultation and treatment by the physician at his regular morning visit or for treatment by the nurses at any time. For surgical cases or for visits by the physician outside of his office hours there is an extra charge. The charge for bed and board at the hospital is \$2.00 a day.

Special or Optional

Instrumental Music, Piano, Violin, Mandolin, Guitar and all Band Instruments or Voice, per entire session (payable half on entrance and half on 1st of January).....	\$60.00
Use of Piano (payable half on entrance and half 1st of January).....	10.00
Private lessons in Public Speaking (payable half on entrance and half 1st of January).....	70.00
Typewriting, with use of instrument, per month (payable half on entrance and half 1st of January).....	1.00

Chemical and Physical Laboratory fee, per session (payable half on entrance and half 1st of January).....	10.00
Diploma	10.00
Manual Training Fee.....	10.00
<i>The Trumpeter</i>	2.00

Damage to school property, other than ordinary wear and tear, will be charged to the cadet by whom committed. Cadets remaining over Christmas holidays will be charged \$10.00 per week.

Outfit

Each cadet must be provided with the following articles, and whatever else, for personal wear, a parent knows to be necessary, marked with the owner's name:

One Bible, four sheets for single bed, one pair of blankets, olive drab or gray, two white spreads, one clothes brush, two bags for soiled clothes, one toothbrush, toilet soap, six napkins, six towels, one teaspoon (for medicine), three pillow cases, 18x34 inches; one comfort, two night-shirts, one small rug two yards in length, one hair brush and comb, shoe brush and polish; one bath robe; one pair high tan shoes (army model) with rubber heels; one pair of white tennis shoes; one pair rubber overshoes; one raincoat (preferably olive drab).

Regular army tan shoes or any of the other required articles can be obtained in Lexington.

Only single beds are used.

Cadets who enter after the first month are charged from date of entrance only.

Students are admitted only on condition that they remain at the Academy the entire school year, unless suspended, dismissed, or forced to withdraw on account of sickness. In case of suspension, dismissal, or voluntary withdrawal, no money paid on tuition or other fees will be refunded and any unpaid balance on account of such fees for the school year shall become immediately due and payable to the Academy. The Academy is not responsible for any property left on the premises by a departing student.

Boys without good character and perseverance are not desired. Physical compulsion will not be used to keep a weak or rebellious student in school.

Lexington, Missouri.

REFERENCES

Following is a list, arranged by states, of a few people who have had relations with Wentworth during the past five years and are therefore capable of telling what the school is accomplishing now:

ARIZONA

Globe.
Mrs. Anna R. Pringle.
Phoenix.
Mr. A. J. Espey, 1743 West Monroe.

ARKANSAS

Fayetteville.
Mrs. Robert Fulbright.
Mr. C. T. Harding, 357 Washington.
Fort Smith.
Mrs. May Robins, 703 Garrison Avenue.
Judsonia.
Mr. B. W. Andrews.
Mrs. R. L. Little.
Morrilton.
Mr. J. S. Moose.

CALIFORNIA

Alameda.
Mr. E. E. Warren, 2409 Lincoln.
Bloomington.
Mr. George W. Kelly.
Hollywood.
Dr. George Harrison.
Los Angeles.
Mrs. A. Ancker, 533 St. Andrews Place.
Mrs. W. L. Bucksen, 3979 Brighton Avenue.
Mr. Joel Ewing, Room 204, Clements Apts., 1318 Maryland St.
Presidio.
Col. H. La T. Cavanaugh.
Santa Monica.
Mr. C. O. A. Maule, 424 Alta Avenue.
Venice.
Mrs. Geo. A. Smith, Sr., 46 Rose Avenue.

COLORADO

Arvada.
Mr. Wesley Staley.
Boulder.
Mr. James Decker.
Mr. Fred W. James, 877 11th Street.
Mrs. Mabel McCoy, 725 Spruce.
Denver.
Mr. A. S. Chappell, 1671 Harrison Street.
Mr. T. S. Cox, 538 East Seventeenth Street.
Mrs. L. H. Hadley, 1435 Washington Street.
Mr. P. H. Spangler, 2534 Emerson.
Mr. Joseph Monnig, 1041 Marion Street.
Mr. William O. Mussey, 1638 California.
Mr. Geo. A. Smith, 1667 Harrison Street.

Fort Collins.
Mrs. Clyde H. Brown, 119 North Grant.
Mr. D. F. Brown, 502 South College Avenue.
Mr. William Lindenmeyer.
Mr. C. A. Pettibone, 924 West Mountain Street.
Mr. N. C. Warren.

Glenwood Springs.
Judge John Shumate.

Grand Junction.
Mrs. J. W. Rector.

Lamar.
Rev. E. B. Pratt.
Mr. Cora R. Strain.

Longmont.
Mrs. Lillie Knox, Knox-Lashley Mercantile Co.

Loveland.
Mr. R. E. Hoyt, 1052 Cleveland Avenue.
Dr. J. G. McFadden, 229 East Sixth Street.

Matheson.
Mrs. Jesse Matheson.

Pueblo.

THE VICTORY WINDOW

(This picture shows the window decoration of a Lexington Cafe before the Missouri-Wentworth Football game.)

SUMMARY OF ADVANTAGES OFFERED BY WENTWORTH MILITARY ACADEMY

I. It is the oldest military school in the Middle West and has been under the same management for thirty-eight years.

II. Its location is a town of schools, upon the high bluffs of the Missouri River, forty-

INSPECTION OF TENTS AND KITS

three miles east of Kansas City, on the Missouri Pacific Railroad and the Santa Fe Trail.

III. It has an unusually efficient military department with instructors and equipment furnished by the Government.

IV. It has a hospital with two registered nurses and is therefore able to give imme-

diately and efficient care in any accident or illness.

V. While not denominational, it is a Christian school and all teachers are required to be members of evangelical churches.

VI. It has the largest and best equipped school gymnasium in Missouri and one of the largest in the country.

VII. It has a system of athletics which reaches every student.

VIII. It is not an individual enterprise, but is incorporated and belongs to a board of trustees. It has no debt. These facts insure permanence.

IX. It believes the first duty of a teacher of boys to be the development of true manhood, and his principal labor character building.

X. It maintains a separate school for boys in the grammar school grades.

XI. Its library is unusually complete and a trained attendant is constantly in charge.

XII. It has two athletic fields and two swimming pools.

XIII. It is recognized scholastically by the best colleges and universities.

XIV. It encourages the growth of personality.

CENTRAL COLLEGE

FOR WOMEN

In making application, please use this form. It is convenient for filing alphabetically, for reference in classifying the boys in their studies, and in looking up directions as to their spending money, special studies, or any specific instructions you may give.

APPLICATION FOR ADMISSION
TO
WENTWORTH MILITARY ACADEMY
LEXINGTON, MISSOURI

SUPERINTENDENT:

I hereby make application for admission of my son or ward to your Academy for session beginning September 14, 1920, and ending May 31, 1921, subject to provisions and regulations published in your current catalogue. I certify that he is of good character and that I know no reason for his being refused admission.

(Signed)

Date Address

Full name of son or ward:

Do you wish him to take a regular course?

What courses do you expect him to carry during the coming year?

If he already has credit in high school subjects, what are they?

Do you expect to send him to college later?

Present condition of health:

Is he subject to any peculiar form of illness?

Has he ever had any severe injury, such as strain, rupture, etc., which may prevent the ordinary exercise of all parts of the body?

Date of birth Has he been vaccinated for smallpox?

Has he been vaccinated for typhoid?

Grade completed:

Church affiliation or preference:
